

Company Profile

Efficient Services

About Us

We established our Singapore head office at Ubi Crescent, Singapore in 2001, and went on to incorporate PT Turbo-Mech Indonesia and Bayu Manufacturing Sdn Bhd in 2002. As a group, our business was now a comprehensive combination of supplying equipment, spare parts and providing after-sales services – which included maintenance, repairs and overhauls for our equipment manufacturers.

PT. Turbo-Mechin (PT.TURBO MECH INDONESIA) is an engineering & trading company specialising in rotating equipment for the oil, gas and petrochemical industries. Our history began with Turbo-Mech Asia, incorporated in Singapore in 1989. As a trading company, Turbo-Mech is positioned in between the equipment manufacturers and the end users in the value chain.

Backed with 20 years of experience, Turbo-Mech Group has built a vast network of subsidiaries in the Asean region. The ultimate goal is to be a reputable supplier for the Oil & Gas and Petrochemical industries in the region. At Turbo-Mech Indonesia , we strive to deliver quality products and exceptional services on time, every time.

PROVIDING BEST SOLUTIONS
by Turbo Mech

Why Turbo -Mechin ?

Since inception, we have been fully committed to quality. We strive to deliver the best in specifications and cost, and we are authorised to sell, market and distribute equipment for reputable manufacturers. Where required, we can also provide on-site technical assistance by trained engineers.

Sales, Service & Parts

Our workshop is authorised to provide maintenance and overhaul services for rotating equipment manufactured by Nikkiso Co Ltd, and Nikkiso Lewa for the oil and gas , manufacture plans and refinery industry.

– *all* of our clients are a priority – irrespective of size. Your project is just as important to us, as it is to you.

Alts business activities range from supply of rotating and mechanical static equipment to maintenance services, with a proven and demonstrable track record of completed projects and services throughout Indonesia
